

Model 8300, Sonoma Ranch panel, Brown finish, Arched Stockton windows, Decorative hardware

DOOR FEATURES

Effective Joint Seals

Snug-fitting tongue-and-groove section joints reduces wind and weather from entering the garage.

Foamed-In-Place Polyurethane Insulation

provides thermal efficiency with an R-value* of 12.12† for Model 8300 and 16.22 for Model 8500.

Heavy Gauge Steel End Caps

Wrap-around end caps trim out door edges for better appearance, improved strength and protect the insulation from damage.

• Silent Glide Rollers

Nylon rollers with solid steel shafts provide years of smooth, quiet and dependable operation

• High Cycle Spring Option

Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring

• Wind Load Options

Available with structural reinforcements for use in coastal or high wind region

• Limited Lifetime Warranty

*Wayne Dalton uses a calculated door section R-value for our insulated doors.

†R-value is for 8' tall doors. R-value for other door heights may vary slightly. See website for warranty and wind load details.
